

Model: GX-150

Technical features

Reference	Description	Working radius	Maximum length of tube (mm)
19002816	Hose reel system, 15 m with spray gun and 45 cm connection set	165° + 165°	15000

Packaging dimensions:

Depth: 600,000 MM

Width: 600,000 MM

Height: 200,000 MM

Gross weight: 23,000 KG

General features

Especially designed to be installed in food-processing industries (meat, fish, vegetables, etc.), professional kitchens, catering companies, etc.

Enclosed reel structure, arms and wall brackets made of stainless steel.

Professional-grade, compact, long-life, heat-resistant black rubber hose approved for foodservice applications.

Retractable, spring-driven hose, with ratcheting system that effortlessly holds the length of hose.

Connection to the water supply with a 90 °C coupling, 1/2" nipple and check valve to prevent backflow of water.

Internal mainspring with adjustable tension.

Swing bracket that enables a wide operational range (up to 180° in Model GX-60, and up to 330 °C for Models GX-100 and GX-150), decreases stress and tension in the hose and gets full access from the connection point.

Front trigger water gun with adjustable or continuous flow of water functions. Made of high-quality plastic, with an ergonomic design.

Models GX-100 and GX-150 include, as a standard option, a 45 cm extension unit that can be assembled to the water gun in order to gain access to difficult points and to reduce user's physical effort.

Operating temperature is 60 °C for 4 bar and 40 °C for 6 bar.
