Hand held Mixers

Bermixer PRO Turbo Combi 650 W with
Stainless Steel Tube (553mm) and
Reinforced Whisk

600327 (DBPW6555)

Portable mixer, variable speed up to 10000 rpm, with stainless steel tube 553 mm and whisk - 650 W

Short Form Specification

Item No. _____

Handheld mixer with stainless steel tube, reinforced whisk and space saving storing wall support. To be used directly in stew pots, even during cooking. Bayonet system ensures easy removal of accessories without tools. Parts in contact with food - tube, blade, shaft - completely dismountable without tools for easy cleaning. Bell knife design ensures antisplash system and minimum handling during working operations. Flat motor base with ergonomic handle for a convenient grip. Electronic speed variator with speed regulation regardless of the load. Electronic speed adjustment by pulse on + and - buttons. Maximum speed: 10000rpm. Safety feature requires both hands to start the machine. Design for heavy duty usage: double fan system to cool down the motor. Visible and water proof (IP55) control panel to control speed levels and overload warning light. Shaft locking device avoids release during operation.

Main Features

- Delivered with:
 - flat base motor
 - stainless steel whisk and tube
 - space saving storing wall support
 - reinforced whisk
- Parts in contact with food - tube, blade, shaft - can be completely dismantled without tools for easy cleaning.
- Designed to be used directly in stew pots up to 220 lt.
- Anti-splash bell knife design.
- Tube, knife and whisks are dishwasher safe.
- Safety feature requires both hands to start the mixer (no volt release system).
- Light weight, ergonomic grip and adjustable speeds make preparation tasks fast and easy.
- Overheating warning red indicator.
- Bayonet system makes fast and simple to exchange tools.
- Productivity suitable for 50 to 300 meals per service.

Construction

- Power: 650 watts.
- Maximum speed 10000 rpm.
- Motor has an air cooling system and is protected against overheating (in case of long intensive work).
- Smart speed control to ensure the right power according to the work load.
- Water protected motor unit (controls are IP55, IP34 throughout machine).
